PROFILE

I am Muhammad Henry Aditya. Dedicated, adaptable web/AI developers with 1 year of hands-on experience in front-end and back-end web development. Proven ability to work effectively in a team, striving to solve problems collaboratively. Committed to personal and team success, with a strong drive to achieve outstanding results in every project undertaken. In addition to my abilities in website/AI development, I also emphasize other valuable skills, such as project management and problem-solving that will help me improve. I'm also excited to learn new aspects of web/AI development to stay updated with the latest advancements in the field, especially for smart and effective web development.
